USING THE DIRECTORY

ACKNOWLEDGEMENTS

PART A. ANIMALS

I MOLLUSCS

1. GASTROPODS

- 1.1 *Cittarium pica* Top Shell
- 1.2 *Placostylus ambagiosus* Flax Snail
- 1.3 *Placostylus ambagiosus* Land Snail
- 1.4 *Partula suturalis*
- 1.5 *Partula taeniata*
- 1.6 *Partula tahieana*
- 1.7 *Partula tohiveana*

2. BIVALVES

- 2.1 Freshwater Mussels
- 2.2 *Tridacna gigas* Giant Clam

II ARTHROPODS

3. ORTHOPTERA

- 3.1 *Deinacrida sp.* Weta
- 3.2 *Deinacrida rugosa/parva* Cook's Strait Giant Weta

3.3 *Gryllus campestris* Field Cricket

4. LEPIDOPTERA

4.1 *Carterocephalus palaemon* Chequered Skipper

4.2 *Lycaena dispar batavus* Large Copper

4.3 *Lycaena helle*

4.4 *Lycaeides melissa*

4.5 *Papilio aristodemus ponoceanus* Schaus Swallowtail

5. COLEOPTERA

5.1 *Carabus olympiae* Olympiae Ground Beetle

III. CHORDATES

6. BONY FISH

6.1 *Acipenser fulvescens* Lake Sturgeon

6.2 *Coregonus albula* Vendace

6.3 *Etheostoma nianguae* Niangua Darter

6.4 *Noturus baileyi* Smoky Madtom

6.5 *Noturus flavipinnis* Yellow Madtom

6.6 *Oncorhynchus apache* Apache Trout

6.7 *Oncorhynchus masou formosanus* Formosan Salmon

6.8 *Percina tanasi* Snail Darter

6.9 *Ptychocheilus lucius* Colorado Squawfish

6.10 *Scaphirhynchus albus* Pallid Sturgeon

6.11 *Scleropages formosus* Asian Arowana

7. AMPHIBIANS

ANURA

7.1 *Alytes muletensis* Mallorcan Midwife Toad

7.2 *Bufo baxteri* Wyoming Toad

7.3 *Bufo calamita* Natterjack Toad

7.4 *Leiopelma hamiltoni* Maud Island Frog

7.5 *Peltophryne lemur* Puerto Rican Crested Toad

7.6 *Philautus romeri* Romer's Tree Frog

7.7 *Polypedates cruciger* Common Hourglass Tree Frog

7.8 *Rana dalmatina* Agile Frog

URODELA

- 7.9 *Ambystoma tigrinum tigrinum* Eastern Tiger Salamander
- 7.10 *Triturus cristatus* Great Crested Newt

8. REPTILES

CHELONIA

- 8.1 *Geochelone elephantopus ephippium* Galapagos Tortoise
- 8.2 *Geochelone elephantopus hoodensis* Galapagos Tortoise
- 8.3 *Pseudemydura umbrina* Western Swamp Tortoise
- 8.4 *Testudo hermanni* Hermann's Tortoise

SQUAMATA

- 8.5 *Cnemidophorus vazoii* St. Lucia Whiptail Lizard
- 8.6 *Coronella austriaca* Smooth Snake
- 8.7 *Cyclodina alani* Robust Skink
- 8.8 *Cyclodina macgregori* Macgregor's Skink
- 8.9 *Cyclodina n.sp.* Mokohinau Skink
- 8.10 *Cyclodina oliveri* Marbled Skink
- 8.11 *Cyclodina whitakeri* Whitaker's Skink
- 8.12 *Cyclura collei* Jamaican Iguana
- 8.13 *Cyclura nubila lewesi* Grand Cayman Iguana
- 8.14 *Epicrates monensis granti* Virgin Island Boa
- 8.15 *Hoplodactylus pacificus* Pacific Gecko
- 8.16 *Hoplodactylus aff. pacificus* Matapia Island Gecko
- 8.17 *Hoplodactylus duvaucelii* Duvaucel's Gecko
- 8.18 *Hoplodactylus maculatus*
- 8.19 *Lacerta agilis agilis* Sand Lizard
- 8.20 *Leiopsima lineocellatum* Spotted Skink
- 8.21 *Naultinus elegans punctatus* Wellington Green Gecko
- 8.22 *Oligosoma suteri* Suter's or Egg Laying Skink
- 8.23 *Sphenodon punctatus punctatus* Tuatara

CROCODILIA

- 8.24 *Alligator mississippiensis* American Alligator
- 8.25 *Caiman latirostris* Broad-nosed Caiman
- 8.26 *Crocodylus acutus* American Crocodile
- 8.27 *Crocodylus intermedius* Orinoco Crocodile
- 8.28 *Crocodylus mindorensis* Philippines Crocodile
- 8.29 *Crocodylus niloticus* Nile Crocodile
- 8.30 *Crocodylus palustris* Marsh Crocodile
- 8.31 *Crocodylus porosus* Estuarine Crocodile

8.32 *Gavialis gangeticus* Gharial

9. BIRDS

STRUTHIONIFORMES

9.1 *Struthio camelus camelus* Sudanese or Red-necked Ostrich

APTERYGIFORMES

9.2 *Apteryx australis* North Island Brown Kiwi

9.3 *Apteryx australis* Okarito Brown kiwi

9.4 *Apteryx owenii* Little Spotted Kiwi

PROCELLARIFORMES

9.5 *Pelecanoides urinatrix urinatrix* Diving Petrel

9.6 *Puffinus gavia* Fluttering Shearwater

CICONIIFORMES

9.7 *Ciconia ciconia boyciana* Oriental White Stork

9.8 *Mycteria cinerea* Milky Stork

ANSERIFORMES

9.9 *Anas aucklandica chlorotis* New Zealand Teal

9.10 *Anser indicus* Bar-headed Goose

9.11 *Branta sandvicensis* Hawaiian Goose

9.12 *Cygnus cygnus buccinator* Trumpeter Swan

FALCONIFORMES

9.13 *Accipiter trivirgatus* Crested Goshawk

9.14 *Aegypius monachus* Black Vulture

9.15 *Falco punctatus* Mauritius Kestrel

9.16 *Falco peregrinus anatum* Peregrine Falcon

9.17 *Falco peregrinus* Peregrine Falcon

9.18 *Falco femoralis* Apolmado Falcon

9.19 *Gymnogyps californianus* California Condor

9.20 *Gypaetus barbatus* Bearded Vulture

9.21 *Gyps fulvus* Griffon Vulture

9.22 *Haliaeetus albicilla* White-tailed Sea Eagle

9.23 *Haliaeetus leucocephalus* American Bald Eagle

9.24 *Milvus milvus* Red Kite

9.25 *Neophron percnopterus* Egyptian Vulture

9.26 *Pandion haliaetus* Osprey

9.27 *Spilornis cheela* Crested Serpent Eagle

9.28 *Vultur gryphus* Andean Condor

GALLIFORMES

- 9.29 *Catreus wallichii* Cheer Pheasant
- 9.30 *Colinus virginianus ridgwayi* Masked Bobwhite Quail
- 9.31 *Crax blumenbachii* Red-billed Curassow
- 9.32 *Leipoa ocellata* Mallee Fowl
- 9.33 *Megapodius pritchardii* Polynesian Scrub Hen
- 9.34 *Ortalis vetula* Plain Chachalaca
- 9.35 *Tympanuchus cupido* Greater Prairie-chicken

GRUIFORMES

- 9.36 *Chlamydotis (undulata) macqueenii* Houbara Bustard
- 9.37 *Chlamydotis (undulata) undulata* Houbara Bustard
- 9.38 *Galltrallus australis greyi* North Island Weka
- 9.39 *Grus americana* Whooping Crane
- 9.40 *Grus carunculata* Wattled Crane
- 9.41 *Porphyrio mantelli* Takahē

CHARADRIIFORMES

- 9.42 *Himantopus novaezelandiae* New Zealand Black Stilt
- 9.43 *Sterna dougallii* Roseate Tern
- 9.44 *Thinornis novaeseelandiae* New Zealand Shore Plover

COLUMBIFORMES

- 9.45 *Columba inornata wetmorei* Puerto Rican Plain Pigeon
- 9.46 *Columba mayeri* Pink Pigeon

PSITTACIFORMES

- 9.47 *Amazona aestiva* Blue-fronted Amazon
- 9.48 *Neophema chrysogaster* Orange-bellied Parrot
- 9.49 *Nestor meridionalis* Kaka
- 9.50 *Rhynchopsitta pachyrhyncha* Thick-billed Parrot
- 9.51 *Strigops habroptilus* Kakapo
- 9.52 *Vini ultramarina* Ultramarine Lory

STRIGIFORMES

- 9.53 *Athene cunicularia* Burrowing Owl
- 9.54 *Bubo bubo bubo* European Eagle Owl
- 9.55 *Glaucidium passerinum* Eurasian Pygmy Owl

PICIFORMES

- 9.56 *Picoides borealis* Red-cockaded Woodpecker

PASSERIFORMES

- 9.57 *Atrichornis clamosus* Western (Noisy) Scrub-bird
- 9.58 *Bowdleria punctata* Fernbird
- 9.59 *Buphagus erythrorhynchus* Red-billed Oxpecker
- 9.60 *Callaeas cinerea wilsoni* North Island Kokako
- 9.61 *Corvus corax* Raven
- 9.62 *Corvus hawaiiensis* Hawaiian Crow
- 9.63 *Lanius ludovicianus mearnsi* Loggerhead Shrike
- 9.64 *Leucospar rothschildi* Bali (Rothschild's) Mynah
- 9.65 *Mohoua ochrocephala* Yellowhead
- 9.66 *Notiomystis cincta* Stitchbird
- 9.67 *Petroica australis* New Zealand Robin
- 9.68 *Petroica macrocephala chathamensis* Chatham Is. Tomtit
- 9.69 *Philesturnus carunculatus* Saddleback

10. MAMMALS

MARSUPIALIA

- 10.1 *Antechinus minimus martimus* Swamp Antechinus
- 10.2 *Bettongia lesueur* Burrowing Bettong
- 10.3 *Bettongia penicillata* Brush-tailed Bettong
- 10.4 *Dasyurus geoffroyi* Chuditch
- 10.5 *Isoodon obesulus fusciventer* Southern Brown Bandicoot
- 10.6 *Macropus eugenii* Tammar Wallaby
- 10.7 *Myrmecobius fasciatus* Numbat
- 10.8 *Perameles gunnii* Eastern Barred Bandicoot
- 10.9 *Petaurus breviceps* Sugar Glider
- 10.10 *Phascogale tapoatafa* Brush-tailed Phascogale
- 10.11 *Pseudocheirus occidentalis* Western Ringtail Possum
- 10.12 *Trichosurus vulpecula* Brushtail Possum

PRIMATES

LEMURS

- 10.13 *Varecia varecia variegata* Black and White Ruffed Lemur

TAMARINS AND MARMOSETS

- 10.14 *Callithrix geoffroyi* Geoffroy's Marmoset
- 10.15 *Leontopithecus chrysopygus* Golden-rumped Lion Tamarin
- 10.16 *Leontopithecus rosalia* Golden Lion Tamarin

NEW WORLD MONKEYS

- 10.17 *Alouatta villosa* Black Howler
- 10.18 *Brachyteles arachnoides* Woolly Spider Monkey (Muriqui)

OLD WORLD MONKEYS

- 10.19 *Cercopithecus mitis* Syke's Monkey
- 10.20 *Mandrillus leucophaeus* Drill

HOMINIDS

- 10.21 *Pan troglodytes* Chimpanzee
- 10.22 *Pongo pygmaeus* Orangutan

LAGOMORPHA

- 10.23 *Bunolagus monticularis* Riverine Rabbit
- 10.24 *Lepus capensis* Desert Hare

RODENTIA

- 10.25 *Castor fiber* Beaver
- 10.26 *Geocapromys brownii* Jamaican Hutia
- 10.27 *Leggadina lakedownensis* Thevenard Is. Short-tailed Mouse
- 10.28 *Leporillus conditor* Stick-nest Rat
- 10.29 *Muscardinus avellanarius* Common Dormouse
- 10.30 *Pseudomys fieldi* Shark Bay Mouse

CARNIVORA

CANIDS

- 10.31 *Canis lupus* Gray Wolf
- 10.32 *Canis lupus baileyi* Mexican Gray Wolf
- 10.33 *Canis rufus* Red Wolf
- 10.34 *Lycaon pictus* African Wild Dog
- 10.35 *Vulpes velox* Swift Fox

FELIDS

- 10.36 *Acinonyx jubatus* Cheetah
- 10.37 *Felis caracal* Caracal
- 10.38 *Felis pardalis* Ocelot
- 10.39 *Felis silvestris* European Wildcat
- 10.40 *Lynx lynx* Lynx
- 10.41 *Lynx pardinus* Iberian Lynx
- 10.42 *Panthera leo* African Lion
- 10.43 *Puma concolor* Puma

MUSTELIDS

- 10.44 *Enhydra lutris nereis* Southern Sea Otter
- 10.45 *Lutra lutra lutra* European Otter
- 10.46 *Lutra lutra* Otter
- 10.47 *Mustela nigripes* Black-footed Ferret

URSIDS

- 10.48 *Ursus arctos* Brown Bear
- 10.49 *Ursos arctos horribilis* Grizzly Bear

PINNEPEDIA

- 10.50 *Monachus monachus* Monk Seal

SIRENIA

- 10.51 *Trichechus manatus latirostris* Manatee
- 10.52 *Trichechus manatus manatus* Antillean Manatee

PROBOSCIDEA

- 10.53 *Elephas maximus* Asian Elephant
- 10.54 *Loxodonta africana* African Elephant

PERISSODACTYLA

EQUIDS

- 10.55 *Equus ferus przewalskii* Przewalskii's Horse
- 10.56 *Equus hemionus* Asian Wild Ass
- 10.57 *Equus hemionus kulan* Kulan
- 10.58 *Equus hemionus onager* Onager

RHINOS

- 10.59 *Ceratotherium simum simum* Southern White Rhinoceros
- 10.60 *Diceros bicornis* Black Rhinoceros
- 10.61 *Rhinocerus unicornis* Indian Rhinoceros

ARTIODACTYLA

CERVIDS

- 10.62 *Alces alces* Elk
- 10.63 *Cervus elaphus elaphus* Red Deer
- 10.64 *Cervus nippon pseudaxis* Vietnam Sika Deer
- 10.65 *Elaphurus davidianus* Pere David's Deer
- 10.66 *Rangifer tarandus caribou* Woodland Caribou

BOVIDS

- 10.67 *Addax nasomaculatus* Addax
- 10.68 *Bison bonasus* European Bison
- 10.69 *Capra ibex nubiana* Ibex
- 10.70 *Damaliscus hunteri* Hunter's Hartebeest
- 10.71 *Gazella gazella* Mountain Gazelle
- 10.72 *Gazella subgutturosa* Sand Gazelle
- 10.73 *Gazella subgutturosa marica* Sand Gazelle

- 10.74 *Gazella dorcas* Dorcas Gazelle
- 10.75 *Oryx dammah* Scimitar-horned Oryx
- 10.76 *Oryx leucoryx* Arabian Oryx
- 10.77 *Rupicapra pyrenaica ornata* Abruzzo Chamois

APPENDIX

Foreword

Professor Abdulaziz H. Abuzinada

Secretary General

National Commission for Wildlife Conservation and Development Kingdom of Saudi Arabia

The Arabian peninsula was once home to a surprising variety of wildlife, with representatives of both African and Asian fauna, including cheetah, lion, hyena, wolf and fox, gazelle, oryx and ostrich, ibex and leopard. Rapid economic expansion in the region brought with it many benefits for humans, but these came at the expense of the wildlife. Hunting and habitat loss has resulted in the decline of key animal populations, to the point that some species remain in the peninsula only as isolated groups, extremely vulnerable to further disturbance. In some cases declines have led to the loss of species in the wild, such as the Arabian oryx, or, in the case of the Arabian ostrich, the complete extinction of the form.

The National Commission for Wildlife Conservation and Development was formed in 1986 and given the task of restoring natural biodiversity in the Kingdom of Saudi Arabia. The creation and management of an extensive network of protected areas has done much to protect relict wildlife populations, allowing these populations to grow as the balance between animals and their habitat is restored. In many instances however, wildlife losses have meant that habitat restoration alone is insufficient to ensure the restoration of healthy, self-sustaining populations. In such cases the NCWCD has employed the tool kit of captive-breeding, translocation and re-introduction to return native wildlife to suitable areas of protected habitat. The NCWCD's first re-introduction programmes have focused on the Arabian oryx, following on from the success of oryx re-introductions in the Sultanate of Oman, and on gazelle, ostrich and houbara bustard.

In all its re-introduction projects the NCWCD has maintained close contact with the World Conservation Union (IUCN), Species Survival Commission's specialist groups, including the Conservation Breeding Specialist Group, the Houbara Bustard Advisory Group, the Antelope Specialist Group, and the Re-introduction Specialist Group. The Saudi Arabian re-introduction projects have made extensive use of the expertise of the Re-introduction Specialist Group, through direct contacts, and more recently through the IUCN Guidelines on Re-introductions. Of particular interest for the NCWCD has been the ability to locate and consult with re-introduction practitioners working on related projects in other parts of the world. However, the rapid increase in the number of re-introduction projects world-wide has made it difficult to keep track of developing areas of expertise. It was with this need to be able to identify and contact managers of other re-introduction projects in mind that the NCWCD enthusiastically supported the compilation of an international directory of re-introduction projects. Re-introduction of wildlife is a serious undertaking and not one entered into lightly. While a number of

basic principles are available to guide new projects, each new species being re-introduced will present its own challenges. Much time and many resources could be saved by avoiding mistakes, or taking short-cuts developed by earlier projects. A free exchange of information among project leaders and field staff is essential in this regard. I am confident that this directory, and its future revisions, will be a valuable reference tool for institutions and organizations undertaking or contemplating re-introduction programmes, and will serve to facilitate communication, information-sharing and the development of technical expertise among what is fast becoming a large and widely spread network of re-introduction biologists.

Preface

Pritpal S. Soorae¹ & Philip J. Seddon²

**¹ Technical Project Officer
IUCN/SSC Re-introduction Specialist Group (RSG)
c/o African Wildlife Foundation
Kenya**

**² Research Co-ordinator
National Commission for Wildlife Conservation and Development (NCWCD)
National Wildlife Research Center (NWRC)
Saudi Arabia**

The Re-introduction Practitioners Directory is a joint project between the IUCN/SSC Re-introduction Specialist Group (RSG), Nairobi, Kenya, and the National Commission for Wildlife Conservation and Development (NCWCD), Riyadh, Saudi Arabia.

The idea of a Re-introduction Practitioners Directory was initiated in November 1996 in response to a growing need for re-introduction practitioners, both RSG members and non-members, to contact other projects with similar interests. Such contact is necessary in order to compare data, exchange ideas and avoid duplicating mistakes, and thereby to create a network of projects and practitioners.

The NCWCD agreed in February 1997 to fund a joint project between the NCWCD and RSG. Funding for the directory covered the setting up of a project register, the collection of project details from various sources and the compilation of this information into a computer database. Information on re-introduction practitioners was collected by contacting existing projects known to the RSG, and also by placement of a notice in *Re-introduction News*, the bi-annual RSG newsletter. A database was established at RSG and updated as information came in. In many cases the information we received was either second-hand, or possibly out of date, and where possible was rechecked or confirmed from other sources. Nevertheless, we recognise that this directory is not an exhaustive listing of current re-introduction projects. For some of the projects listed we do not have full contact details, while many projects may not have come to our attention at all. We apologise for any errors or omissions, but see this first version as a stimulus for practitioners to register their projects fully with RSG. We plan to fully revise the listings in the near future, so please contact RSG with new, revised or corrected project details.

The database was set up in taxonomic order to facilitate the generation of reports; consequently the directory is divided into two main sections: animals and plants.

The animal section covers invertebrates such as molluscs and insects, and vertebrates, including sections on fish, reptiles and amphibians, birds and mammals. Plants are covered by geographic regions to avoid any confusion due to ongoing taxonomic revisions. Plant re-introduction project information was provided in this format by the Chair of the RSG Plant Section, at the Royal Botanic Gardens, Kew, UK.

We hope this first edition will prove to be a useful asset for re-introduction practitioners, researchers, students and interested individuals. Undoubtedly the next edition will contain more, and more complete entries, but this will be possible only if personnel involved in re-introductions or those who are aware of re-introduction projects can submit information as per the layout shown in the Appendix.

Introduction

Dr. Mark R. Stanley Price

**Chairman
IUCN/SSC Re-introduction Specialist Group (RSG)
Kenya**

I would like to take this opportunity to thank Professor Abdulaziz Abuzinada in funding this joint project between the NCWCD and RSG. It is also worthwhile to note that a lot of re-introduction projects are based in the Middle-East and that they have a good success rate. My own experience with re-introducing the Arabian oryx in Oman during the 1980's showed that a species extinct in the wild could be restored in the wild with a lot of hard work and determination. The success of the Arabian oryx, sand gazelle, ostrich and houbara bustard re-introductions in Saudi Arabia has shown the commitment of the Saudi people in restoring their biodiversity.

The RSG was formed in 1988, because of the increasing use of re-introductions as a tool for restoring populations within their historic range. At the request of IUCN's Species Survival Commission (SSC), I started RSG in 1988, using the African Wildlife Foundation (AWF) Field Office in Nairobi, Kenya as a hospitable base where I am also Director of African Operations.

The RSG is run by a secretariat based at the African Wildlife Foundation from where all of RSG's activities are coordinated. The RSG has grown from a small group of dedicated individuals to a group comprising over 300 members worldwide. RSG members represent re-introduction practitioners (both in government employment and outside), policy makers, researchers, students and other interested individuals.

To help design re-introduction projects, RSG formulated and developed the Re-introduction Guidelines, which became official IUCN policy in 1995. These guidelines represent the only official policy document on re-introductions. The RSG also publishes the bi-annual *Re-introduction News* which is dedicated solely to re-introductions. This newsletter is also distributed to over 600 addresses worldwide. The RSG secretariat's activities are supported by the Geraldine R. Dodge Foundation, USA and the Walt Disney Foundation Company, USA.

Re-introductions are increasingly becoming a popular tool for restoring extinct wild populations or augmenting small vulnerable populations. We feel that re-introduction is going to become an even more important recovery tool for threatened and endangered populations, but it can never be a universally successful solution. We hope that this directory will facilitate greater links and exchange of information between re-introduction practitioners and others and between projects. By doing this, the RSG hopes it can maximize the chances of re-introductions being successful, while at the

same time preventing re-introduction attempts that are not viable nor feasible nor cost-effective, based on global experience. Again, I would like to acknowledge NCWCD's assistance in helping re-introductions to find their appropriate role in contemporary conservation efforts.

USING THE DIRECTORY

The directory is arranged in taxonomic order, in a series of subdivisions. The first division is between Animals and Plants.

Animals are divided into three phyla: molluscs, arthropods and chordates. Each phyla is secondarily subdivided into orders or classes, and within each secondary subdivision genera and species are given in alphabetical order. The Contents pages function as an index of all the animal species listed in the directory. Each entry represents a re-introduction project. Entries are separated by lines according to the following convention: a pale dotted line separates organisations working on the same species; a thin solid line separates entries for different species, genera or class; a thin double line separates secondary (Order) subdivisions; a thick double line separates major (Phyla) divisions and marks the end of the Animal section.

Plants are divided into region and country, listings of which are given in the Contents pages. Each entry represents an organisation undertaking re-introductions of one or more plant species. A pale dotted line separates organisations from the same country; a thin solid line separates countries within a region; a thin double line separates regions, and a thick double line marks the end of the Plant section.

Each entry in the directory is broken down into the following headings.

- **ORGANISATION:**

Under this section the name of the organisation involved or responsible for conducting a re-introduction project is listed.

- **ADDRESS:**

This section provides the postal address for the relevant organisation.

- **COUNTRY:**

This is generally the country within which the project is taking place. In a few cases it may however indicate the country of an implementing organization which may necessarily not be the country where the project is taking place.

- **REGION:**

The regions listed are those used by IUCN statutes which establish regions for the purposes of its representation in council. The IUCN's "statutory regions" are List of States by Region, as per Articles 16 and 17 of the Statutes and Regulation 36 of the Regulations:-

- ◇ **AFRICA:** Algeria, Angola, Benin, Botswana, Burkina Faso, Burundi, Cameroon, Cape Verde, Central African Republic, Chad, Comoros, Congo, Cote d'Ivoire, Democratic Republic of the Congo, Djibouti, Egypt, Equatorial Guinea, Eritrea, Ethiopia, Gabon, Gambia, Ghana, Guinea, Guinea-Bissau, Kenya, Lesotho, Liberia,

Libyan Arab Jamahiriya, Madagascar, Malawi, Mali, Mauritania, Mauritius, Morocco, Mozambique, Namibia, Niger, Nigeria, Rwanda, Sao Tome and Principe, Senegal, Seychelles, Sierra Leone, Somalia, South Africa, Sudan, Swaziland, Togo, Tunisia, Uganda, United Republic of Tanzania, Zambia and Zimbabwe.

- ◇ **MESO AND SOUTH AMERICA (MSAMERICA):** Argentina, Belize, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, El Salvador, Guatemala, Guyana, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Suriname, Uruguay and Venezuela.
- ◇ **NORTH AMERICA AND THE CARRIBBEAN (NAMERICACARIB):** Antigua and Barbuda, Bahamas, Barbados, Canada, Cuba, Dominica, Dominican Republic, Grenada, Haiti, Jamaica, Saint Kitts and Nevis, Saint Lucia, Saint Vincent and the Grenadines, Trinidad and Tobago and United States of America.
- ◇ **SOUTH AND EAST ASIA (SEASIA):** Bangladesh, Bhutan, Brunei Darussalam, Cambodia, China, Democratic People's Republic of Korea, India, Indonesia, Japan, Laos, People's Democratic Republic, Malaysia, Maldives, Mongolia, Myanmar, Nepal, Philippines, Republic of Korea, Singapore, Sri Lanka, Thailand and Viet Nam.
- ◇ **WEST ASIA (WASIA):** Afghanistan, Bahrain, Iran, Islamic Republic of Iraq, Jordan, Kuwait, Lebanon, Oman, Pakistan, Qatar, Saudi Arabia, Syrian Arab Republic, United Arab Emirates and Yemen.
- ◇ **OCEANIA:** Australia, Cook Islands, Fiji, Kiribati, Marshall Islands, Micronesia, Federated States of Nauru, New Zealand, Niue, Palau, Papua New Guinea, Samoa, Solomon Islands, Tonga, Tuvalu and Vanuatu.
- ◇ **EAST EUROPE, NORTH AND CENTRAL ASIA (EEURNCASIA):** Albania, Armenia, Azerbaijan, Belarus, Bosnia and Herzegovina, Bulgaria, Croatia, Czech Republic, Estonia, Georgia, Hungary, Kazakhstan, Kyrgyzstan, Latvia, Lithuania, Poland, Republic of Moldova, Romania, Russian Federation, Slovakia, Slovenia, Tajikistan, The former Yugoslav Republic of Macedonia, Turkmenistan, Ukraine, Uzbekistan and Yugoslavia.
- ◇ **WEST EUROPE (WEUROPE):** Andorra, Austria, Belgium, Cyprus, Denmark, Finland, France, Germany, Greece, Holy See, Iceland, Ireland, Israel, Italy, Liechtenstein, Luxembourg, Malta, Monaco, Netherlands, Norway, Portugal, San Marino, Spain, Sweden, Switzerland, Turkey, United Kingdom of Great Britain and Northern Ireland.

- **TELOFF, FAXOFF, E-MAIL:**

Under these headings the telephone, fax and e-mail contacts are given where known. Phone and fax numbers are given for international dialling.

- **TYPE OF PROJECT:**

- * **Re-introduction:** An attempt to establish a species in an area which was once part of its historical range but from which it has been extirpated or become extinct.
- * **Translocation:** The deliberate and mediated movement of wild individuals to an existing population of conspecifics.
- * **Conservation/Benign Introduction:** An attempt to establish a species, for the purpose of conservation, outside its recorded distribution but within an appropriate habitat and eco-geographical area. This is a feasible conservation tool only when there is no remaining area left within a species' historic range.
- * **Supplementation:** Addition of individuals to an existing population of conspecifics.
- * **Captive - breeding:** In this term is used where a species is to be re-introduced in the near future.
- * **Release of Confiscated Animals:** The release back into the wild of individuals or populations that have been confiscated.
- * **Veterinary:** This term is used to denote a project or individual who consults on veterinary issues to re-introduction projects.
- * **Legal:** This term denotes that an individual or organisation can provide advice on the legal aspects of re-introduction.
- * **Restoration:** In this directory it is used for an area that is restored to encourage colonization by a species.

- **PERSONNEL:**

This lists the name and position (where known) of the contact person listed for the respective project.

- **SPECIES (Plant Section only)**

This lists the plant species for which re-introduction projects are being undertaken by a given organisation.

ACKNOWLEDGEMENTS

We wish to thank our colleagues in the RSG, at the African Wildlife Foundation, the National Wildlife Research Center, and the National Commission for Wildlife Conservation and Development, particularly Iyad Nader, Yolanda van Heezik, Mohammed Basheer Chukkan, Lesley Allen, and Catherine Tsagarakis all of whom assisted in the compilation and printing process. Special thanks to all those who responded to our request for information about current re-introduction projects, and thanks in advance to all those who will register, update or amend re-introduction project information for the next revision of the directory.

PART B.

PLANTS

Plant Section Introduction

Dr. Mike Maunder

**Deputy Chairman & Plant Section Chair
IUCN/SSC Re-introduction Specialist Group (RSG)**

This joint initiative between NCWCD and RSG emphasizes the great range of plant re-introduction projects being undertaken, covering a wide range of taxonomic groups, habitats and techniques. The last ten years has seen re-introduction utilized increasingly as a component of recovery planning and incorporated into national and international conservation legislation. Not only have the numbers of projects increased dramatically, but the taxonomic and ecological scope of the projects has expanded. In some respects, plant re-introductions are pushing forward many of the critical research needs in plant conservation biology. These include the genetic management of small and fragmented populations, the relationship between *in situ* and *ex situ* populations, the impact of habitat management and the role of population modeling in designing management regimes. Although it could be argued that re-introduction for plants is still in the pioneer phase of implementation it is gratifying to see that some of the early innovative experiments have proved successful (e.g. *Pediocactus knowltonii* and *Stephanomeria malheurensis*) not only in reinstating populations but in producing well documented case histories.

As experience in plant re-introduction has developed, it has become apparent that re-introduction is not a universal response to the challenges of population decline and species extinction. Whilst re-introduction may not always be required, this is not to rule out the wider utilization of skills used in re-introductions. These include risk assessment, habitat management and population monitoring amongst others. The need for species management, including re-introduction, will increase as habitat degradation and fragmentation proceed. Parallel to this will be a need for habitat restoration to secure surviving populations and to provide a future site for re-introductions.

The list of projects in this directory is indicative of the skills available to plant

conservation. It is planned that the RSG will establish planning tools to assess the potential role of re-introduction and to identify where it can be employed in the most cost-effective and biologically sound manner. The directory, with an initial list of plant re-introductions, illustrates the range of projects; encompassing plants from the alpine habitats of eastern Europe through to the rainforests of East Africa.

In contrast to the rest of the directory, the plant re-introductions are listed geographically and by institution. The plant names have not been checked and are as submitted. The listings represent an initial review of activities and future listings will be expanded with the support of both national conservation agencies and NGO's. It is hoped that this directory will facilitate increased communication between individuals and institutions undertaking plant re-introduction. I would encourage anyone involved in plant re-introduction to both join the RSG and submit details of current projects. The success of re-introduction, as a recognized tool in species recovery and as a support for the retention of viable habitats, will depend upon the establishment of regional and national working groups that can share expertise. In some cases they already exist, however there is still an urgent need to increase communication between practitioners.
